

Electronic Systems Integrators

Here's what Sound Decision can do for you:

From simple installations to full custom projects, Sound Decision is your best solution.

Retail Technologies

We provide AV solutions perfect for a variety of retail applications. With our expertise and the latest technologies, you are assured a great solution for your needs and budget!

Restaurants, Bars, & Hotels

We know how technology can take your business to the next level. Help increase your earnings by keeping your customers entertained with beautiful video and sound.

Network Wiring

Our trained technicians will wire your entire building, for all your devices like smart TVs, computers, CCTV, and IP cameras so that everything is connected flawlessly.

Cellphone Amplification

Does your cell work fine outside, but calls drop out inside? We install best-in-class cellphone amplification systems to keep calls and data connected.

Security Cameras

Sound Decision gives you peace of mind by seeing what is happening at your office, even when you're not there. We have a great selection of cameras to suit any application.

Access Control

Our access control systems mean no more lost keys! Know who's coming and going, leave no undetected strangers, reduce the chaos of after-hour shifts, and secure sensitive information.

Lighting & Shade Control

Lighting and shade systems provide precision control over room lighting, privacy, and aids in climate control, all at the touch of a button.

What Our Clients Say

In referring Scott and Sound Decision for The BLOC project, a 1.9M sq. ft. mixed-use project in DTLA, I've had nothing but fantastic feedback. Scott's team did a great job and understood our audio needs and visual concerns better than his competitors. Their service was superb and they worked well with our building engineers on this big job. I highly recommend Sound Decision to other retail/commercial property owners.

Kathleen Maguire Miller
Director - Marketing and Communications
The Ratkovich Company

Sound Decision installed low-voltage systems in the now-open Dream Hollywood Hotel. I am very happy with their work and how efficiently they handled any issues that came up in a timely, professional manner. I look forward to working with Scott's team on future projects.

Ayo Akinsete
VP of Operations
Managing Director, Dream Hollywood

About Us

It is said that passion drives excellence. Sound Decision loves what we do! That passion drives us to research the latest technologies and constantly train to stay up-to-date with product training and certifications. Our goal is to provide our valued customer with the best products and services. What we deliver is superior customer service with the end goal of building a trusted relationship that endures.

To build lasting relationships, the first step is trust. We listen carefully to your wants and needs and we fine tune them into a custom proposal and help accomplish your vision of how technology will best serve your business. Whether you are a technophobe or a technology enthusiast, we ensure your system is reliable and easy to use, so everyone in your space can enjoy the system and maximize its full potential!

We take pride in our work. We appreciate your feedback.
Our reputation is built on your satisfaction!
