

Electronic Systems Integrators

Here's what Sound Decision can do for you:

From simple installations to full custom projects, Sound Decision is your best solution.

Home Automation

Interact with all the different systems in your home through a single app, making it simple and fun to use.

Home Theater & Media Rooms

Bring the movies home and experience entertainment at its best with carefully planned, easy-to-use home theaters and media rooms.

Whole-House A/V

With crystal clear audio in every room, we create new and unforgettable experiences for families and guests to enjoy.

Lighting & Shade Control

Lighting and shade systems provide precision control over the amount of light in a room, all from the touch of a button.

Security Cameras

You are able to monitor your most valuable assets, at home and at work, by equipping your home or office with a state-of-the-art surveillance system.

Structured Wiring

Our structured wiring packages are designed to bring together each subsystem into one fully automated system — while accommodating upgrades.

Outdoor Audio & Video

Enjoy an outdoor movie night and light up the outside of the home with energy-efficient landscape lighting.

What Our Clients Say

We couldn't be more happy with the screening room, Scott and the team from Sound Decision installed for us. The level of professionalism and knowledge is evident throughout the whole process – the results are amazing. What's most important is that Scott doesn't forget about you when the job's finished – once a client, always a client.

Andy Bird

Sound Decision installed low-voltage systems in the now-open Dream Hollywood Hotel. I am very happy with their work and how efficiently they handled any issues that came up in a timely, professional manner. I look forward to working with Scott's team on future projects.

Ayo Akinsete
VP of Operations

Managing Director, Dream Hollywood

About Us

It is said that passion drives excellence. Sound Decision loves what we do! That passion drives us to research the latest technologies and constantly train to stay up-to-date with product training and certifications. Our goal is to provide our valued customer with the best products and services. What we deliver is superior customer service with the end goal of building a trusted relationship that endures.

To build lasting relationships, the first step is trust. We listen carefully to your wants and needs and we fine tune them into a custom proposal and help accomplish your vision of how technology will best serve your business. Whether you are a technophobe or a technology enthusiast, we ensure your system is reliable and easy to use so everyone in your space can enjoy the system and use its full potential!

We take pride in our work. We appreciate your feedback.
Our reputation is built on your satisfaction!
